### Acrolon® EG-120 Comp. A

Version	Revision Date:	Date of last issue: -
1.0	15.12.2022	Date of first issue: 15.12.2022

#### SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product i	identifier		
Trade na	ame	:	Acrolon® EG-120 Comp. A
Product	code	:	0000000000031873
1.2 Relevant	identified uses of th	ie s	ubstance or mixture and uses advised against
Use of the stance/M		:	Coatings and paints, thinners, paint removers
Recomm on use	nended restrictions	:	Reserved for industrial and professional use.
1.3 Details o	f the supplier of the	saf	ety data sheet
Compan	у	:	Sherwin-Williams Coatings Deutschland GmbH Rieter Tal 1 71665 Vaihingen / Enz
Telepho	ne	:	+4970421090
E-mail a	ddress of person	:	SDS-DE@sherwin.com

#### 1.4 Emergency telephone number

responsible for the SDS

#### National advisory body/Poison Center

Telephone number: Not available Supplier Telephone number: +49 (0) 7042 109-0 Hours of operation: Emergency contact available 24 hours a day

### **SECTION 2: Hazards identification**

#### 2.1 Classification of the substance or mixture

Classification (REGULATION (EC) No 12	272/2008)
Flammable liquids, Category 3	H226: Flammable liquid and vapour.
Skin irritation, Category 2	H315: Causes skin irritation.
Eye irritation, Category 2	H319: Causes serious eye irritation.
Skin sensitisation, Category 1	H317: May cause an allergic skin reaction.
Specific target organ toxicity - repeated	H373: May cause damage to organs through pro-
	1 / 20

according to Regulation (EC) No. 1907/2006

# Acrolon® EG-120 Comp. A

Version 1.0	Revision Date: 15.12.2022		Date of last issue: - Date of first issue: 15.12.2022
expos	sure, Category 2		longed or repeated exposure.
2.2 Label	elements		
	I <b>ling (REGULATION (</b> rd pictograms	EC)	No 1272/2008)
Signa	l word	:	Warning
Haza	rd statements	:	<ul> <li>H226 Flammable liquid and vapour.</li> <li>H315 Causes skin irritation.</li> <li>H317 May cause an allergic skin reaction.</li> <li>H319 Causes serious eye irritation.</li> <li>H373 May cause damage to organs through prolonged or repeated exposure.</li> </ul>
Preca	utionary statements	:	Prevention:
			<ul> <li>P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.</li> <li>P260 Do not breathe mist or vapours.</li> <li>P264 Wash skin thoroughly after handling.</li> <li>P280 Wear protective gloves/ protective clothing/ eye protection/ face protection/ hearing protection.</li> </ul>
			<b>Response:</b> P303 + P361 + P353 IF ON SKIN (or hair): Take off immedi- ately all contaminated clothing. Rinse skin with water. P370 + P378 In case of fire: Use dry sand, dry chemical or alcohol-resistant foam to extinguish.

#### Hazardous components which must be listed on the label:

Acrylic copolymer

naphtha (petroleum), hydrodesulphurized heavy; Low boiling point hydrogen treated naphtha

#### Additional Labelling

EUH211 Warning! Hazardous respirable droplets may be formed when sprayed. Do not breathe spray or mist.

#### 2.3 Other hazards

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

Ecological information: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

#### **SECTION 4: First aid measures**

#### 4.1 Description of first aid measures

4.2

General advice	: Move out of dangerous area. Show this safety data sheet to the doctor in attendance. Do not leave the victim unattended.	
If inhaled	<ul> <li>If unconscious, place in recovery position and seek medical advice.</li> <li>If symptoms persist, call a physician.</li> </ul>	
In case of skin contact	<ul> <li>If skin irritation persists, call a physician.</li> <li>If on skin, rinse well with water.</li> <li>If on clothes, remove clothes.</li> </ul>	
In case of eye contact	<ul> <li>Immediately flush eye(s) with plenty of water.</li> <li>Remove contact lenses.</li> <li>Protect unharmed eye.</li> <li>Keep eye wide open while rinsing.</li> <li>If eye irritation persists, consult a specialist.</li> </ul>	
If swallowed	<ul> <li>Keep respiratory tract clear.</li> <li>Do not give milk or alcoholic beverages.</li> <li>Never give anything by mouth to an unconscious person.</li> <li>If symptoms persist, call a physician.</li> <li>Take victim immediately to hospital.</li> </ul>	
2 Most important symptom	s and effects, both acute and delayed	
Symptoms	: There are no data available on the mixture itself. Procedure used to derive the classification according to Regulation (EC No. 1272/2008 [CLP/GHS] See Sections 2 and 3 for details. Exposure to component solvent vapour concentrations in example.	

Exposure to component solvent vapour concentrations in excess of the stated occupational exposure limit may result in adverse health effects such as mucous membrane and respiratory system irritation and adverse effects on the kidneys, liver and central nervous system. Symptoms and signs include headache, dizziness, fatigue, muscular weakness, drowsiness and, in extreme cases, loss of consciousness. Solvents may cause some of the above effects by absorption through the

# Acrolon® EG-120 Comp. A

Version 1.0	Revision Date: 15.12.2022		Date of last issue: - Date of first issue: 15.12.2022
			skin. Repeated or prolonged contact with the mixture may cause removal of natural fat from the skin, resulting in non- allergic contact dermatitis and absorption through the skin. If splashed in the eyes, the liquid may cause irritation and re- versible damage. This takes into account, where known, de- layed and immediate effects and also chronic effects of com- ponents from short-term and long-term exposure by oral, inha- lation and dermal routes of exposure and eye contact.
Risk	5	:	Causes skin irritation. May cause an allergic skin reaction. Causes serious eye irritation. May cause damage to organs through prolonged or repeated exposure.
4.3 Indica	ation of any immediate I	med	lical attention and special treatment needed
Trea	tment	:	Treat symptomatically.
SECTIO	N 5: Firefighting meas	sur	es
5.1 Extin	guishing media		
Suita	ble extinguishing media	:	Alcohol-resistant foam Carbon dioxide (CO2) Dry chemical
Unsu medi	iitable extinguishing a	:	High volume water jet
5 2 Speci	al hazards arising from	the	substance or mixture
-	cific hazards during fire-	:	Do not allow run-off from fire fighting to enter drains or water courses.
5.3 Advic	e for firefighters		
Spec	cial protective equipment refighters	:	Wear self-contained breathing apparatus for firefighting if nec- essary.
Furth	ner information	:	Collect contaminated fire extinguishing water separately. This must not be discharged into drains. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations. For safety reasons in case of fire, cans should be stored sepa- rately in closed containments. Use a water spray to cool fully closed containers.

### **SECTION 6:** Accidental release measures

#### 6.1 Personal precautions, protective equipment and emergency procedures

Personal precautions : Use personal protective equipment.

according to Regulation (EC) No. 1907/2006

Version 1.0	Revision Date: 15.12.2022	Date of last issue: - Date of first issue: 15.12.2022
		Remove all sources of ignition. Evacuate personnel to safe areas. Beware of vapours accumulating to form explosive concentra- tions. Vapours can accumulate in low areas.
6.2 Enviro	onmental precautions	
Envir	onmental precautions :	Prevent product from entering drains. Prevent further leakage or spillage if safe to do so. If the product contaminates rivers and lakes or drains inform respective authorities.
6.3 Metho	ods and material for conta	inment and cleaning up
Meth	ods for cleaning up :	Contain spillage, and then collect with non-combustible ab- sorbent material, (e.g. sand, earth, diatomaceous earth, ver- miculite) and place in container for disposal according to local / national regulations (see section 13).
	ence to other sections ons: 7, 8, 11, 12 and 13.	
SECTION	N 7: Handling and stora	lge
	utions for safe handling	Cood housely a ping standards, require of a removal of wasts
Αάνις	e on safe handling :	Good housekeeping standards, regular safe removal of waste materials and regular maintenance of spray booth filters will minimise the risks of spontaneous combustion and other fire hazards. Avoid formation of aerosol. Do not breathe vapours/dust. Avoid exposure - obtain special instructions before use. Avoid contact with skin and eyes. For personal protection see section 8. Smoking, eating and drinking should be prohibited in the ap-
		plication area. Take precautionary measures against static discharges. Provide sufficient air exchange and/or exhaust in work rooms. Container may be opened only under exhaust ventilation hood.
		Open drum carefully as content may be under pressure. Dispose of rinse water in accordance with local and national regulations.
		Persons susceptible to skin sensitisation problems or asthma, allergies, chronic or recurrent respiratory disease should not be employed in any process in which this mixture is being used.
	e on protection against : nd explosion	Do not spray on a naked flame or any incandescent material. Take necessary action to avoid static electricity discharge (which might cause ignition of organic vapours). Keep away from open flames, hot surfaces and sources of ignition.

according to Regulation (EC) No. 1907/2006

# Acrolon® EG-120 Comp. A

Vers 1.0	sion Revision Date: 15.12.2022		Date of last issue: - Date of first issue: 15.12.2022
	Hygiene measures	:	When using do not eat or drink. When using do not smoke. Wash hands before breaks and at the end of workday.
7.2	Conditions for safe storage,	inc	luding any incompatibilities
Requirements for storage areas and containers		:	No smoking. Keep container tightly closed in a dry and well- ventilated place. Containers which are opened must be care- fully resealed and kept upright to prevent leakage. Observe label precautions. Electrical installations / working materials must comply with the technological safety standards.
	Storage class (TRGS 510)	:	3
	Further information on stor- age stability	:	No decomposition if stored and applied as directed.
7.3	Specific end use(s) Specific use(s)	:	No data available

# SECTION 8: Exposure controls/personal protection

### **Biological occupational exposure limits**

Substance name	CAS-No.	Control parameters	Sampling time	Basis
xylene	1330-20-7	methylhippuric acid (all isomers): 2.000 mg/l (Urine)	Immediately after exposure or after working hours	TRGS 903
ethylbenzene	100-41-4	mandelic acid + phenylglyoxylic acid: 250 mg/g Creatinine (Urine)	Immediately after exposure or after working hours	TRGS 903

according to Regulation (EC) No. 1907/2006

Version 1.0	Revision Date: 15.12.2022		Date of last issue: - Date of first issue: 15.12.2022
8.2 Expos	sure controls		
Perse	onal protective equip	ment	
Eye p	protection	:	Equipment should conform to EN 166 Eye wash bottle with pure water Tightly fitting safety goggles Wear face-shield and protective suit for abnormal processing problems.
Hand	protection		
G	love length	:	Standard glove type.
Di	rective	:	Equipment should conform to EN 374
M	aterial	:	Protective equipment only chosen according to specific regu- latory requirements after a risk assessment.
M	aterial	:	Chemical resistant gloves made of butyl rubber or nitrile rub- ber category III according to EN 374.
R	emarks	:	Follow the instructions for use issued by the producer. Gloves should be discarded and replaced if there is any indi- cation of degradation or chemical breakthrough. Be aware that in daily use the durability of a chemical resistant protec- tive glove can be notably shorter than the break through time measured according to EN 374, due to the numerous outside influences (e.g. temperature). The choice of an appropriate glove does not only depend on its material but also on other quality features and is different from one producer to the oth- er. Barrier creams may help to protect the exposed areas of skin, they should however not be applied once exposure has occurred. The suitability for a specific workplace should be discussed with the producers of the protective gloves.
Skin	and body protection	:	Flame retardant antistatic protective clothing. Rubber apron Boots Impervious clothing Choose body protection according to the amount and con- centration of the dangerous substance at the work place.
Resp	iratory protection	:	Equipment should conform to EN 14387 General and local exhaust ventilation is recommended to maintain vapor exposures below recommended limits. Where concentrations are above recommended limits or are un- known, appropriate respiratory protection should be worn. Follow OSHA respirator regulations (29 CFR 1910.134) and use NIOSH/MSHA approved respirators. Protection provided by air purifying respirators against exposure to any hazardous chemical is limited. Use a positive pressure air supplied respi- rator if there is any potential for uncontrolled release, expo- sure levels are unknown, or any other circumstance where air purifying respirators may not provide adequate protection.

#### 14.6 Special precautions for user

The transport classification(s) provided herein are for informational purposes only, and solely based upon the properties of the unpackaged material as it is described within this Safety Data Sheet. Transportation classifications may vary by mode of transportation, package sizes, and variations in regional or country regulations.

#### 14.7 Maritime transport in bulk according to IMO instruments

Not applicable for product as supplied.

#### **SECTION 15: Regulatory information**

#### 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

REACH - Restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles (Annex XVII) : Conditions of restriction for the following entries should be considered: Number on list 3

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.

It is recommended that each customer or recipient of this Safety Data Sheet (SDS) study it carefully and consult resources, as necessary or appropriate, to become aware of and understand the data contained in this SDS and any hazards associated with the product. This information is provided in good faith and believed to be accurate as of the effective date herein. However, no warranty, express or implied, is given. The information presented here applies only to the product as

shipped. The addition of any material can change the composition, hazards and risks of the product. Products shall not be repackaged, modified, or tinted except as specifically instructed by the manufacturer, including but not limited to the incorporation of products not specified by the manufacturer, or the use or addition of products in proportions not specified by the manufacturer. Regulatory requirements are subject to change and may differ between various locations and jurisdictions. The customer/buyer/user is responsible to ensure that his activities comply with all country, federal, state, provincial or local laws. The conditions for use of the product are not under the control of the manufacturer; the customer/buyer/user is responsible to determine the conditions necessary for the safe use of this product. The customer/buyer/user should not use the product for any purpose other than the purpose shown in the applicable section of this SDS without first referring to the supplier and obtaining written handling instructions. Due to the proliferation of sources for information such as manufacturer-specific SDS, the manufacturer cannot be responsible for SDSs obtained from any other source.
