according to Regulation (EC) No. 1907/2006

Acrolon® EG-120 Comp. B

Version	Revision Date:	Date of last issue: -
1.0	14.12.2022	Date of first issue: 14.12.2022

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1	Product identifier			
	Trade name	:	Acrolon® EG-120 Comp. B	
	Product code	:	0000000000029928	
1.2	Relevant identified uses of t	he s	ubstance or mixture and uses advised against	
	Use of the Sub- stance/Mixture	:	Coatings and paints, thinners, paint removers	
	Recommended restrictions on use	:	Reserved for industrial and professional use.	
1.3 Details of the supplier of the safety data sheet				
	Company	:	Sherwin-Williams Coatings Deutschland GmbH Rieter Tal 1 71665 Vaihingen / Enz	

Telephone	:	+4970421090
E-mail address of person responsible for the SDS	:	SDS-DE@sherwin.com

1.4 Emergency telephone number

National advisory body/Poison Center

Telephone number: Not available **Supplier** Telephone number: +49 (0) 7042 109-0 Hours of operation: Emergency contact available 24 hours a day

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

Classification (REGULATION (EC) No 1272/2008)			
Flammable liquids, Category 3	H226: Flammable liquid and vapour.		
Acute toxicity, Category 4	H332: Harmful if inhaled.		
Skin irritation, Category 2	H315: Causes skin irritation.		
Eye irritation, Category 2	H319: Causes serious eye irritation.		
Skin sensitisation, Category 1	H317: May cause an allergic skin reaction.		
	1 / 20		

according to Regulation (EC) No. 1907/2006

Acrolon® EG-120 Comp. B

Version	Revision Date:	Date of last issue: -
1.0	14.12.2022	Date of first issue: 14.12.2022

Specific target organ toxicity - single exposure, Category 3, Respiratory system

Specific target organ toxicity - repeated exposure, Category 2

H335: May cause respiratory irritation.

H373: May cause damage to organs through prolonged or repeated exposure.

2.2 Label elements

Labelling (REGULATION (EC) Hazard pictograms :	No 1272/2008)
Signal word :	Warning
Hazard statements :	 H226 Flammable liquid and vapour. H315 Causes skin irritation. H317 May cause an allergic skin reaction. H319 Causes serious eye irritation. H332 Harmful if inhaled. H335 May cause respiratory irritation. H373 May cause damage to organs through prolonged or repeated exposure.
Precautionary statements :	 Prevention: P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. P260 Do not breathe mist or vapours. P264 Wash skin thoroughly after handling. P280 Wear protective gloves/ protective clothing/ eye protection/ face protection/ hearing protection.
	Response: P303 + P361 + P353 IF ON SKIN (or hair): Take off immedi- ately all contaminated clothing. Rinse skin with water. P370 + P378 In case of fire: Use dry sand, dry chemical or alcohol-resistant foam to extinguish.
Hazardous components whic Hexamethylene diisocyanate, o	

rexamethylene dilsocyanate, ol xylene ethylbenzene hexamethylene-di-isocyanate

Additional Labelling

"As from 24 August 2023 adequate training is required before industrial or professional use."

according to Regulation (EC) No. 1907/2006

Acrolon® EG-120 Comp. B

Version	Revision Date:	Date of last issue: -
1.0	14.12.2022	Date of first issue: 14.12.2022

2.3 Other hazards

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

Ecological information: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

Toxicological information: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

SECTION 4: First aid measures

4.1 Description of first aid measures

General advice	: Move out of dangerous area. Show this safety data sheet to the doctor in attendance. Do not leave the victim unattended.
If inhaled	 Consult a physician after significant exposure. If unconscious, place in recovery position and seek medical advice.
In case of skin contac	ct : If skin irritation persists, call a physician. If on skin, rinse well with water. If on clothes, remove clothes.
In case of eye contac	 Immediately flush eye(s) with plenty of water. Remove contact lenses. Protect unharmed eye. Keep eye wide open while rinsing. If eye irritation persists, consult a specialist.
If swallowed	 Keep respiratory tract clear. Do not give milk or alcoholic beverages. Never give anything by mouth to an unconscious person. If symptoms persist, call a physician. Take victim immediately to hospital.
4.2 Most important symp	ptoms and effects, both acute and delayed
Symptoms	: There are no data available on the mixture itself. Procedure used to derive the classification according to Regulation (EC) No. 1272/2008 [CLP/GHS] See Sections 2 and 3 for details. Exposure to component solvent vapour concentrations in ex- cess of the stated occupational exposure limit may result in adverse health effects such as mucous membrane and respir- atory system irritation and adverse effects on the kidneys, liver

according to Regulation (EC) No. 1907/2006

Acrolon® EG-120 Comp. B

Version 1.0	Revision Date: 14.12.2022	Date of last issue: - Date of first issue: 14.12.2022
		and central nervous system. Symptoms and signs include headache, dizziness, fatigue, muscular weakness, drowsiness and, in extreme cases, loss of consciousness. Solvents may cause some of the above effects by absorption through the skin. Repeated or prolonged contact with the mixture may cause removal of natural fat from the skin, resulting in non- allergic contact dermatitis and absorption through the skin. If splashed in the eyes, the liquid may cause irritation and re- versible damage. This takes into account, where known, de- layed and immediate effects and also chronic effects of com- ponents from short-term and long-term exposure by oral, inha- lation and dermal routes of exposure and eye contact.
Risks		 Causes skin irritation. May cause an allergic skin reaction. Causes serious eye irritation. Harmful if inhaled. May cause respiratory irritation. May cause damage to organs through prolonged or repeated exposure.
4.3 Indicat	ion of any immedia	ate medical attention and special treatment needed

Treatment

: Treat symptomatically.

SECTION 5: Firefighting measures

5.1 Extinguishing media

Suitable extinguishing media	:	Alcohol-resistant foam Carbon dioxide (CO2) Dry chemical
Unsuitable extinguishing media	:	High volume water jet

5.2 Special hazards arising from the substance or mixture

Specific hazards during fire-	:	Do not allow run-off from fire fighting to enter drains or water
fighting		courses.

5.3 Advice for firefighters

Special protective equipment for firefighters	:	Wear self-contained breathing apparatus for firefighting if nec- essary.
Further information	:	Collect contaminated fire extinguishing water separately. This must not be discharged into drains. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations. For safety reasons in case of fire, cans should be stored sepa- rately in closed containments. Use a water spray to cool fully closed containers.

according to Regulation (EC) No. 1907/2006

Acrolon® EG-120 Comp. B

Version	Revision Date:	Date of last issue: -
1.0	14.12.2022	Date of first issue: 14.12.2022

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal precautions	: Use personal protective equipment.
	Ensure adequate ventilation.
	Remove all sources of ignition.
	Evacuate personnel to safe areas.
	Beware of vapours accumulating to form explosive concentra-
	tions. Vapours can accumulate in low areas.

6.2 Environmental precautions

Environmental precautions	:	Prevent product from entering drains.
		Prevent further leakage or spillage if safe to do so.
		If the product contaminates rivers and lakes or drains inform
		respective authorities.

6.3 Methods and material for containment and cleaning up

Methods for cleaning up	:	Contain spillage, and then collect with non-combustible ab-
		sorbent material, (e.g. sand, earth, diatomaceous earth, ver-
		miculite) and place in container for disposal according to local
		/ national regulations (see section 13).
		miculite) and place in container for disposal according to loc

6.4 Reference to other sections

See sections: 7, 8, 11, 12 and 13.

SECTION 7: Handling and storage

7.1 Precautions for safe handling

Advice on safe hand	dling :	Good housekeeping standards, regular safe removal of waste materials and regular maintenance of spray booth filters will minimise the risks of spontaneous combustion and other fire hazards. Avoid formation of aerosol. Do not breathe vapours/dust. Avoid exposure - obtain special instructions before use. Avoid contact with skin and eyes. For personal protection see section 8. Smoking, eating and drinking should be prohibited in the ap- plication area. Take precautionary measures against static discharges. Provide sufficient air exchange and/or exhaust in work rooms. Open drum carefully as content may be under pressure. Dispose of rinse water in accordance with local and national regulations. Persons susceptible to skin sensitisation problems or asthma, allergies, chronic or recurrent respiratory disease should not be employed in any process in which this mixture is being used.
Advice on protection	n against :	Do not spray on a naked flame or any incandescent material.

	fire and	d explosion		Take necessary action to avoid static electricity discharge (which might cause ignition of organic vapours). Keep away from open flames, hot surfaces and sources of ignition.
	Hygien	e measures	:	When using do not eat or drink. When using do not smoke. Wash hands before breaks and at the end of workday.
7.2 (Conditi	ons for safe storage,	inc	luding any incompatibilities
		ements for storage and containers	:	No smoking. Keep container tightly closed in a dry and well- ventilated place. Containers which are opened must be care- fully resealed and kept upright to prevent leakage. Observe label precautions. Electrical installations / working materials must comply with the technological safety standards.
	Storag	e class (TRGS 510)	:	3
	Furthe	r information on stor- ability	:	No decomposition if stored and applied as directed.
7.3 \$	-	c end use(s) c use(s)	:	No data available

Remarks	Gloves cation that in tive glo measu influen glove o quality er. Bar skin, th occurre	Follow the instructions for use issued by the producer. Gloves should be discarded and replaced if there is any indi- cation of degradation or chemical breakthrough. Be aware that in daily use the durability of a chemical resistant protec- tive glove can be notably shorter than the break through time measured according to EN 374, due to the numerous outside influences (e.g. temperature). The choice of an appropriate glove does not only depend on its material but also on other quality features and is different from one producer to the oth- er. Barrier creams may help to protect the exposed areas of skin, they should however not be applied once exposure has occurred. The suitability for a specific workplace should be discussed with the producers of the protective gloves.

			concentrations are above recommended limits or are un- known, appropriate respiratory protection should be worn. Follow OSHA respirator regulations (29 CFR 1910.134) and use NIOSH/MSHA approved respirators. Protection provided by air purifying respirators against exposure to any hazardous chemical is limited. Use a positive pressure air supplied respi- rator if there is any potential for uncontrolled release, expo- sure levels are unknown, or any other circumstance where air purifying respirators may not provide adequate protection. When workers are facing concentrations above the exposure limit they must use appropriate certified respirators.
Prot	ective measures	:	In case of insufficient ventilation, wear suitable respiratory equipment.
	ironmental exposure	contr	ols
Wat	er	:	The product should not be allowed to enter drains, water courses or the soil.

SECTION 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties

Physical state	:	liquid
Colour	:	yellow
Odour	:	slight
Odour Threshold	:	No data available
Boiling point/boiling range	:	ca. 145 °C
Upper explosion limit / Upper flammability limit	:	10,8 %(V)
Lower explosion limit / Lower flammability limit	:	1 %(V)
Flash point	:	ca. 38 °C Method: closed cup
Auto-ignition temperature	:	Not relevant/applicable due to the nature of the product.
Decomposition temperature	:	Not relevant/applicable due to the nature of the product.
рН	:	Not relevant/applicable due to the nature of the product.
Viscosity Viscosity, kinematic	:	> 20,5 mm2/s (40 °C)
Solubility(ies)

Acrolon® EG-120 Comp. B

Version 1.0	Revision Date: 14.12.2022	Date of last issue: - Date of first issue: 14.12.2022
W	ater solubility	: insoluble
	ion coefficient: n- ol/water	: Not relevant/applicable due to the nature of the product.
Vapo	ur pressure	: 7,9993 hPa
Dens	ity	: ca. 1,07 g/cm3 (20 °C)
Relat	ive vapour density	: Not relevant/applicable due to the nature of the product.
9.2 Other	information	
Explo	osives	: No dangerous reaction known under conditions of normal us
Oxidi	zing properties	: No dangerous reaction known under conditions of normal us

SECTION 10: Stability and reactivity

10.1	Reactiv	vity

No hazards to be specially mentioned. No decomposition if stored and applied as directed.

10.2 Chemical stability

Stable under normal conditions. No decomposition if stored and applied as directed.

10.3 Possibility of hazardous reactions

Hazardous reactions : No decomposition if stored and applied as directed.

Vapours may form explosive mixture with air.

10.4 Conditions to avoid

Conditions to avoid : Heat, flames and sparks. Temperatures greater than recommended storage temperature.

10.5 Incompatible materials

Materials to avoid : Strong acids and strong bases

10.6 Hazardous decomposition products

Carbon dioxide (CO2), carbon monoxide (CO), oxides of nitrogen (NOx), dense black smoke.

SECTION 11: Toxicological information

11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

Information on likely routes of : exposure

There are no data available on the mixture itself. Procedure

according to Regulation (EC) No. 1907/2006

Acrolon® EG-120 Comp. B

Version 1.0	Revision Date: 14.12.2022		Date of last issue: - Date of first issue: 14.12.2022
			used to derive the classification according to Regulation (EC) No. 1272/2008 [CLP/GHS] See Sections 2 and 3 for details. Exposure to component solvent vapour concentrations in ex- cess of the stated occupational exposure limit may result in adverse health effects such as mucous membrane and respir- atory system irritation and adverse effects on the kidneys, liver and central nervous system. Symptoms and signs include headache, dizziness, fatigue, muscular weakness, drowsiness and, in extreme cases, loss of consciousness. Solvents may cause some of the above effects by absorption through the skin. Repeated or prolonged contact with the mixture may cause removal of natural fat from the skin, resulting in non- allergic contact dermatitis and absorption through the skin. If splashed in the eyes, the liquid may cause irritation and re- versible damage. This takes into account, where known, de- layed and immediate effects and also chronic effects of com- ponents from short-term and long-term exposure by oral, inha- lation and dermal routes of exposure and eye contact.

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.

Calculation method

It is recommended that each customer or recipient of this Safety Data Sheet (SDS) study it carefully and consult resources, as necessary or appropriate, to become aware of and understand the data contained in this SDS and any hazards associated with the product. This information is provided in good faith and believed to be accurate as of the effective date herein. However, no warranty, express or implied, is given. The information presented here applies only to the product as shipped. The addition of any material can change the composition, hazards and risks of the product. Products shall not be repackaged, modified, or tinted except as specifically instructed by the manufacturer, including but not limited to the incorporation of products not specified by the manufacturer, or the use or addition of products in proportions not specified by the manufacturer. Regulatory requirements are subject to change and may differ between various locations and jurisdictions. The customer/buyer/user is responsible to ensure that his activities comply with all country, federal, state, provincial or local laws. The conditions for use of the product are not under the control of the manufacturer; the customer/buyer/user is responsible to determine the conditions necessary for the safe use of this product. The customer/buyer/user should not use the product for any purpose other than the purpose shown in the applicable section of this SDS without first referring to the supplier and obtaining written handling instructions. Due to the proliferation of sources for information such as manufacturer-specific SDS, the manufacturer cannot be responsible for SDSs obtained from any other source.
